of Science in
Cybersecurity
career field.

5 REASONS WHY SHOULD YOU INVEST IN YOUR FUTURE WITH ANU:

Career Professionals as Instructors

You will learn from instructors with real-world field experience who will guide and mentor you.

Convenience and Flexibility

Day and evening classes give flexibility to work and earn your degree.

We Bring Our University to You

[Distance education](#) and hybrid programs allow you to be live, in class, from anywhere.

Career Services

Our team will help you before graduation to gain the necessary skills to search for [career opportunities](#).

Alumni benefits

As an alumnus you will have access to our career services and refresher courses available throughout your career.

PROGRAM REQUIREMENTS

Program Core REQUIRED (44 credits)

Information Security Systems and Organizational Awareness

Intrusion Detection Attack and Countermeasures

Information Security and Organizational Change

Business and Security Risk Analysis

Information Security Project Management

Strategic Analysis in Information Security

Design, Development and Evaluation of Security Controls

Security Policies, Standards and Procedures

Information Security and Assurance Policy Planning and Analysis

Risk Management and Compliance

Certification and Accreditation

Electives (Choose 3 courses) – (12 credits)

Legal and Ethical Practices in Information Security (CISSP) ●

Information Security Management (CISM)

Secure Software Development (CSSLP)

Ethical Hacking and Penetration Testing (CEH/LPT)

Forensic Evaluation and Analysis (CCFE)

Business Continuity Planning (CBCP)

- Electives prepare students for the individual certifications but CISSP course is popular and most widely known.

PREPARE FOR CYBERSECURITY CERTIFICATIONS

The ANU MSC program
will also prepare you
to sit for a number of
certification exams,
including

Certified Computer Forensics Examiner (CCFE).

Tests a candidate's fundamental knowledge of the computer forensics evidence recovery and analysis process. Evaluated on their knowledge of both **hard and soft skills**. Skilled info professionals are the most important piece in the info security puzzle.

For more info, visit http://www.iacertification.org/ccfe_certified_computer_forensics_examiner.html

Certified Information Systems Security Professional (CISSP)

Most valued information security certification in the world. Most employers prefer it 3 - 1 over any other credential. Earning the CISSP proves you have what it takes to effectively design, implement and manage a best-in-class cybersecurity program.

For more info, visit <https://www.isc2.org/Certifications/CISSP>

The Certified Ethical Hacker (CEH)

Most comprehensive Ethical Hacking program in the world. CEH is a core training program for an information security professional who systematically attempts to inspect network infrastructure with the consent of its owner to find security vulnerabilities which a malicious hacker could potentially exploit.

For more info, visit <https://www.eccouncil.org/programs/certified-ethical-hacker-ceh/>

Certified Secure Software Lifecycle Professional (CSSLP)

CSSLP shows employers you have the advanced technical skills and knowledge necessary for authentication, authorization and auditing throughout the SDLC using best practices, policies and procedures established by the cybersecurity experts at (ISC)².

For more info, visit <https://www.isc2.org/Certifications/CSSLP>

Certified Business Continuity Professional (CBCP)

Most widely recognized business continuity certification in the world. CBCPs are professionals that have show knowledge and skills in the business continuity/disaster recovery industry. The level requires more than **two (2) years of experience**.

For more info, visit <https://drii.org/certification/cbcp>

"...go to ANU, it's the only option you can do and the best."

Aso Hussein, working in cybersecurity has been Aso Hussein's childhood dream, but there were no opportunities for him to study in his home country, Iraq. Emigrating to America gave Aso a chance to pursue his dream.

He heard about American National University's Master of Science in Cybersecurity program through a friend, a recent graduate of ANU himself. "He told me to go to ANU, it's the only option you can do and the best one." Determined to pursue his dream, he decided to attend American National University. "When I moved to the United States, I felt like doors were opening for me. One of the big doors was American National University."

"ANU...made the process of admissions so simplified," said Aso. "A qualified student doesn't need to [go through] a complex system for admission." The classes that he is taking are helping him with his current position with a major clothing retailer. "It's made [my job] much easier."

One day, Aso hopes to be working on obtaining his doctorate and starting his own business. He enjoys ANU, recommended his friends to attend, and is looking forward to the rest of his program.

Military Friendly

At American National University (ANU), we recognize what U.S. military men and women do for our country. We are committed to helping our military students, honorably discharged veterans, their spouses and their families develop the skills and knowledge needed to pursue opportunities in the fastest-growing career fields: business, health care, and computer technology.

Military/Veteran features and benefits:

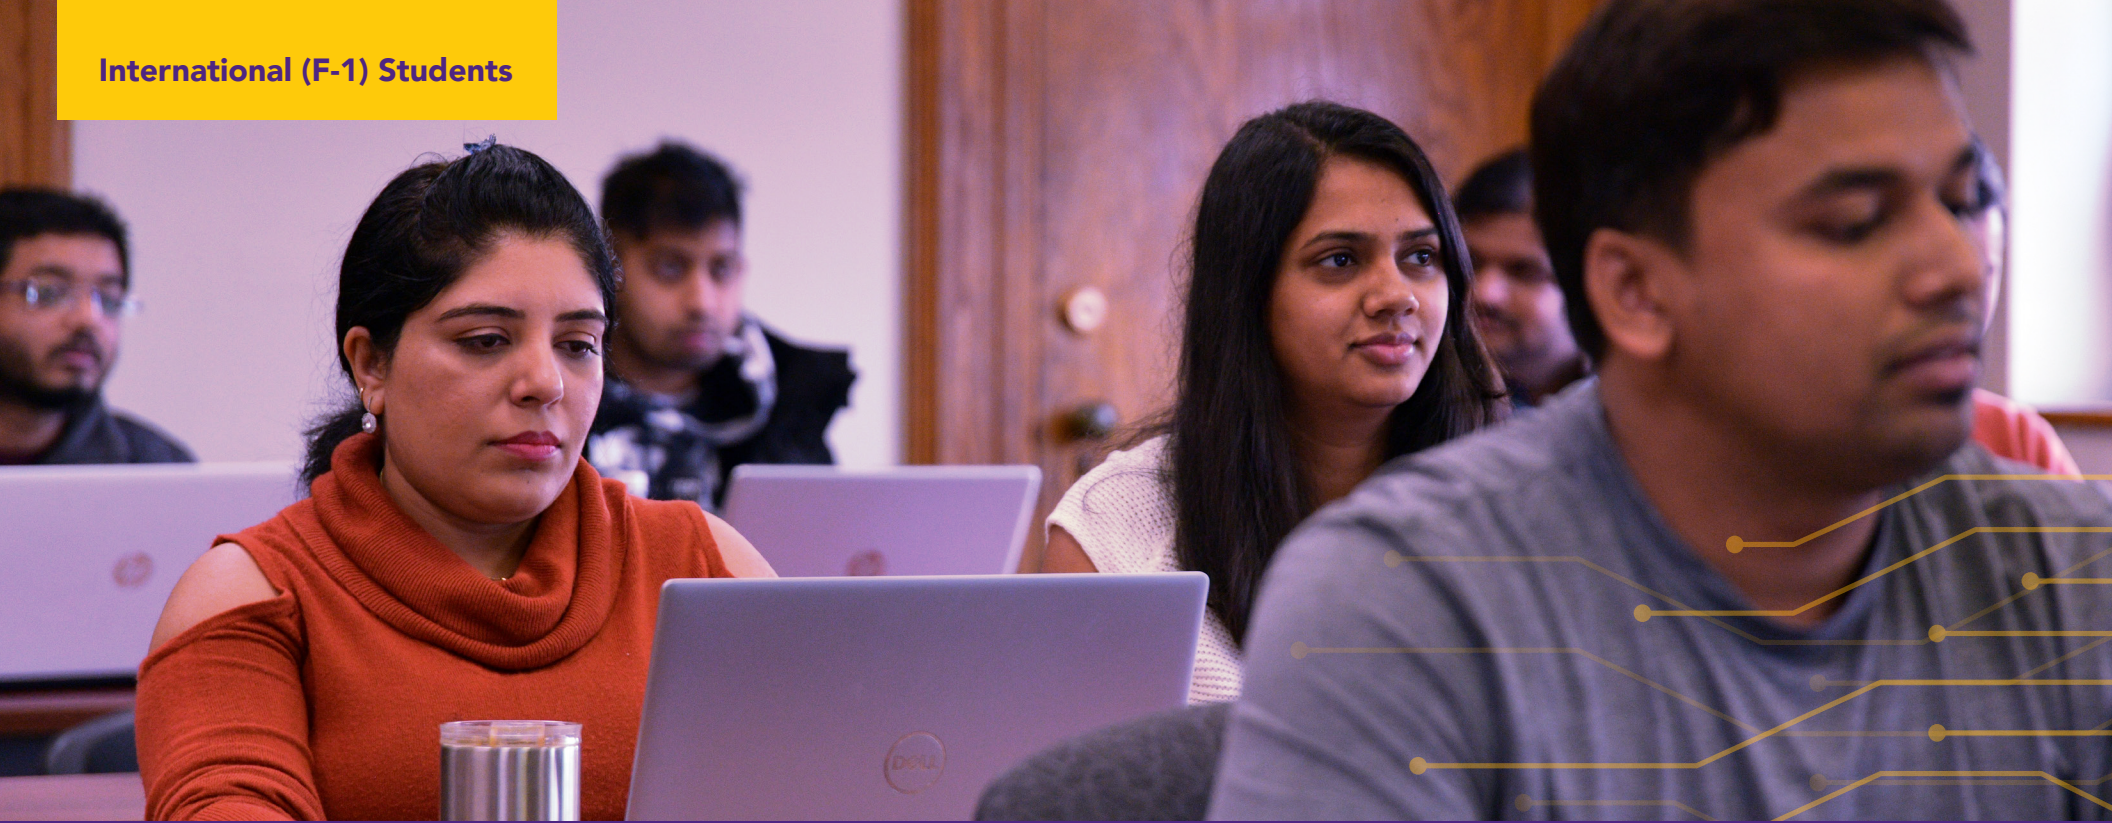

- A [military-friendly university](#) prepared to help you achieve your education and career goals.
- American National University is approved to offer GI Bill®* educational benefits by the Virginia State Approving Agency.
- Military Training & Education — Earn credit for your military schools and experience, or test out of courses.
- Transfer Credits — If you have already begun your studies elsewhere, or if you hold a diploma or degree from another college or university, you will find that ANU makes transferring credits simple so that you can get a head start on your career program.
- Exclusive Military Grants — Our Blue Ribbon Grant awards up to \$18,000 in additional financial support to qualified current former military, Guard/ Reserve, and dependents.

* GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>.

ANU President Frank Longaker
Captain, Special Forces, Vietnam
U.S. Army, 1967-1970

“We've helped thousands of veterans, spouses, and dependents achieve their educational goals. I invite you to discover what we can do for you.”

Pursue Your Degree at American National University

The Master of Science in Cybersecurity is SEVP-approved for F-1 international students.

- [Academic programs](#) offered in hybrid format, with one four-day (Thursday-Sunday) residency per 10-week term for graduate students.
- Acceptance of [transfer credits](#) (up to 50% for Graduate level students).
- Curriculum Practical Training allows students to work up to 40 hours a week for 1 year without affecting OPT (Optional Practical Training).

Part-time CPT also an option for entire academic programs.

- No additional fees or charges for CPT!
- No health insurance required.
- No hidden fees
- Books included as part of tuition and fees
